

# NOVEMBER UPDATES

## HELP US DIVIDE OUR CHRISTMAS DONATION

It's time to make our yearly Christmas donation. This year we've chosen three organisations who contribute to our society in different ways. Read more about our options, and vote for your favourite to help decide the percentage of how we divide our donation.

## THE LATEST CORPORATE NEWS

### HOW WE DELIVER VALUE

How can QA as a service bring more value to our clients? Group CEO Erik Björhäll explains a way of working that challenges the traditional way of selling consultant hours – a partnership-based setup that secures access to the right expertise at the right time.

## WHAT'S HAPPENING INTERNALLY AT THE COMPANY?

### STANDING UP TO CANCER, LITERALLY

During the month of November, employees at System Verification have participated in numerous activities to boost our physical and mental health, and at the same time raise money for cancer research. Read all about the initiative we chose to call "Movember".

## CUSTOMER VOICES

### CREATING END-TO-END TESTS FOR MOBILE APPLICATIONS

Crunchfish develops solutions for mobile payments. Needless to say, this is an area that simply has no room for technical glitches, so how can a test framework support and meet these extremely high requirements? Read about how System Verification solved this case!

## CHALLENGE OUR BLOG

### SOLVE A PROBLEM: THE WINNER!

We hosted an autumn challenge where you received the chance to win a €100 Amazon gift card if you were able to solve a mathematical coding problem. It was a tough challenge with many participants, and we now have an official winner.

Congratulations **Annika Eriksson!**

### BIG STEPS AHEAD FOR OUR PHD STUDENT AND HER RESEARCH

Two months ago, the well reputed Springer Nature journal SN Computer Science, published an article by our colleague Adha Hrusto and co-authors Prof. Per Runeson and Dr. Emelie Engström. Read the blog post where System Verification's Magnus C. Ohlsson tell us about the publication.
