

OCTOBER UPDATES

We're back! For a while, our newsletter has been on hiatus. But now we are finally on track again and very happy to send you the latest updates from within our organisation - now with an updated design and structure. We hope you will enjoy our monthly newsletter as much as we do!

THE LATEST CORPORATE NEWS

SPACE CHOOSES SYSTEM VERIFICATION

Opening November 27, Space will be Stockholm's new digital culture center for gaming, music and content creation. For testing and quality assurance of the digital environment, Space chose System Verification as their strategic partner.

CUSTOMER VOICES

SOFTWARE DUE DILIGENCE: CONFIRMING CODE STATUS

HR solution providers CatalystOne wanted to check the status of its software. This is where System Verification's Software Due Diligence came in handy. By combining human expertise with AI-driven software, this service offers an easy and efficient way to analyze a code base.
